SPEAKOUT

Antonia Clare, Frances Eales, Steve Oakes, JJ Wilson

Developed in association with BBC Worldwide and BBC Learning English, Speakout brings the real world into your classroom.

With its authentic material from the BBC, Speakout exposes students to language as it is really used, giving them confidence to communicate. Lessons cover all four skills, grammar and vocabulary. Each unit ends with a lesson based around an extract from a BBC programme which provides a springboard for speaking and writing tasks. Street interview videos filmed by the BBC also give students access to authentic English.

"It's a very exciting time to be involved in learning a language because there is just so much out there. The challenge is how to make sense of it.

People realise the internet is out there and there's lots of English on it but it's very, very difficult for a student to find their way through that information. So what we tried to do is guide them carefully, so that task becomes something manageable, do-able.

These are the kinds of skills people need nowadays and this is what people are doing – researching things on the internet, so the more we can connect the classroom material with the real world out there, the better."

John Beaumont, A. Judith Yancey, Natasha Haugnes, Beth Maher, Laurie Barton, Carolyn Dupaquier, Andrew K. English, Laurie Monahan English, Robert F. Cohen, Judy L. Miller, Polly Merdinger, Robin Mills, Laurie Frazier, Helen Solórzano, Jennifer P. L. Schmidt, Tess Ferree, Kim Sanabria, Sherry Preiss

This five-level course engages students through authentic and compelling content and empowers them to achieve their academic and personal goals.

4th Edition

Conceptualized to promote critical thinking, NorthStar fourth edition infuses analysis, synthesis, evaluation, and application throughout every lesson, not just in a critical thinking section like in other series.

MyEnglishLab online activities offer support and expansion, fully blending the student book with MyEnglishLab for extra practice, in-depth analysis, ongoing assessment, and instant feedback. Teachers can now monitor student performance to personalize learning and increase student motivation.

New and updated content, with thought-provoking themes ranging from phobias to social media, will connect students to the most current content available. Inclusion of explicit language skills allows students to build their language proficiency. Presentation and practice in each unit raise student awareness of key academic skills.
